21 custodian thereof that such condition must be complied with.

22 4. The commissioner may seize industrial hemp by taking physical  
23 possession of industrial hemp when he or she has substantial evidence to  
24 believe that such commodity does not meet the definition thereof, set  
25 forth in subdivision one of section five hundred five of this article,  
26 or is otherwise in violation of, or does not meet a standard set forth  
27 in, applicable law or regulation.

28 5. Subsequent to quarantining or seizing industrial hemp, as author-  
29 ized in subdivisions three and four of this section, the commissioner  
30 shall promptly give the owner or custodian thereof an opportunity to be  
31 heard to show cause why such industrial hemp should not be ordered

14 of the specific reason or reasons for denial.

15 4. The commissioner shall have authority and sole discretion to deter-  
16 mine the number of licenses issued pursuant to this article.

17 § 530. Limitations of licensure; duration. 1. No license pursuant to  
18 this article may be issued to a person under the age of eighteen years.

19 2. The department shall have the authority to limit, by canopy, plant

22 3. All licenses under this article shall expire two years after the  
23 date of issue and be subject to any rules or limitations prescribed by  
24 the commissioner in regulation.

28 2. In the case of applications for renewals, the department may  
29 dispense with the requirements of such statements as it deems unneces-  
30 sary in view of those contained in the application made for the original  
31 license, but in any event the submission of photographs of the licensed  
32 premises shall be dispensed with, provided the applicant for such  
33 renewal shall file a statement with the department to the effect that  
34 there has been no alteration of such premises since the original license  
35 was issued.

36 3. The department may make such rules as may be necessary, not incon-  
37 sistent with this chapter, regarding applications for renewals of  
38 licenses and permits and the time for making the same.

39 4. The department shall provide an application for renewal of a  
40 license issued under this article not less than ninety days prior to the  
41 expiration of the current license.

42 5. The department may only issue a renewal license upon receipt of the  
43 prescribed renewal application and renewal fee from a licensee if, in  
44 addition to the criteria in section five hundred twenty-seven of this  
45 article, the licensee's license is not under suspension and has not been  
46 revoked.

47 6. The department shall have the authority to charge applicants for  
48 licensure under this article a non-refundable application fee. Such fee  
49 may be based on the type of licensure sought, cultivation and/or  
50 production volume, or any other factors deemed reasonable and appropri-  
51 ate by the department to achieve the policy and purpose of this chapter.

52 § 532. Form of license. Licenses issued pursuant to this article shall

6 assure compliance with this chapter.

7 § 533. Amendments to license and duty to update information submitted  
8 for licensing. 1. Upon application of a licensee to the department, a  
9 license may be amended to allow the licensee to relocate within the  
10 state, to add or delete licensed activities or facilities, or to amend  
11 the ownership or organizational structure of the entity that is the  
12 licensee. The fee for such amendment shall be two hundred fifty dollars.

13 2. In the event that any of the information provided by the applicant  
14 changes either while the application is pending or after the license is  
15 granted, within ten days of any such change, the applicant or licensee  
16 shall submit to the department a verified statement setting forth the  
17 change in circumstances of facts set forth in the application. Failure  
18 to do so shall, if willful and deliberate, be cause for revocation of  
19 the license.

20 3. A license shall become void by a change in ownership, substantial  
21 corporate change or location without prior written approval of the  
22 commissioner. The commissioner may promulgate regulations allowing for  
23 certain types of changes in ownership without the need for prior written  
24 approval.

25 4. For purposes of this section, "substantial corporate change" shall  
26 mean:

27 (a) for a corporation, a change of eighty percent or more of the offi-

35 interest in said company.

36 § 534. Record keeping and tracking. 1. The commissioner shall, by  
37 regulation, require each licensee pursuant to this article to adopt and  
38 maintain security, tracking, record keeping, record retention and

42 er.

43 2. Every licensee shall keep and maintain upon the licensed premises,  
44 adequate books and records of all transactions involving the licensee  
45 and sale of its products, which shall include all information required  
46 by rules promulgated by the department.

47 3. Each sale shall be recorded separately on a numbered invoice, which  
48 shall have printed thereon the number, the name of the licensee, the  
49 address of the licensed premises, and the current license number.

50 4. Such books, records and invoices shall be kept for a period of five  
51 years and shall be available for inspection by any authorized represen-  
52 tative of the department.

53 § 535. Inspections and ongoing requirements. All licensees shall be  
54 subject to reasonable inspection by the department, in consultation with  
55 the department of health, and a person who holds a license must make  
56 himself or herself, or an agent thereof, available and present for any

1 inspection required by the department. The department shall make reason-  
2 able accommodations so that ordinary business is not interrupted and  
3 safety and security procedures are not compromised by the inspection.

4 § 536. Packaging and labeling of hemp extract. 1. The department, in  
5 consultation with the department of health, is hereby authorized to  
6 promulgate rules and regulations governing the packaging and labeling of  
7 hemp extract products, sold or possessed for sale in New York state.

8 2. Such regulations shall include, but not be limited to, requiring  
9 labels warning consumers of any potential impact on human health result-  
10 ing from the consumption of hemp extract products that shall be affixed  
11 to those products when sold, if such labels are deemed warranted by the  
12 department. No label may state that hemp extract can treat, cure or  
13 prevent any disease without approval pursuant to federal law.

14 3. Such rules and regulations shall establish a QR code which may be  
15 used in conjunction with similar technology for labels and establish  
16 methods and procedures for determining, among other things, serving  
17 sizes for hemp extract products, active cannabinoid concentration per  
18 serving size, number of servings per container, and the growing region,  
19 state or country of origin if not from the United States. Such regu-  
20 lations shall also require a supplement fact panel that incorporates  
21 data regarding serving sizes and potency thereof.

22 4. The packaging, sale, or possession by any licensee of any hemp  
23 product intended for human or animal consumption or use not labeled or  
24 offered in conformity with rules and regulations promulgated in accord-  
25 ance with this section shall be grounds for the imposition of a fine,  
26 and/or the suspension, revocation or cancellation of a license.

27 § 537. Provisions governing the growing, manufacturing and extracting  
28 of hemp extract. 1. No licensed cannabinoid grower, manufacturer or  
29 extractor shall sell, or agree to sell or deliver in the state any hemp  
30 extract products, as the case may be, except in sealed containers  
31 containing quantities in accordance with size standards pursuant to  
32 rules adopted by the department. Such containers shall have affixed  
33 thereto such labels as may be required by the rules of the department.

34 2. Licensed cannabinoid growers shall be prohibited from using pesti-  
35 cides.

36 3. All hemp extract products shall be extracted and manufactured in

39 and decided upon by the commissioner in regulation.

40 4. Within thirty days of the effective date of this article, the  
41 department shall approve the manufacture, distribution, and sale of  
42 beverages containing no more than twenty milligrams of cannabidiol per  
43 twelve ounce beverage. The hemp extract used in such beverages shall be  
44 grown, extracted and manufactured in the state of New York. The depart-

47 5. Terpenes derived from the hemp plant are generally recognized as  
48 safe.

49 § 538. Laboratory testing. 1. Every cannabinoid manufacturer and  
50 cannabinoid extractor shall contract with an independent laboratory to  
51 test the hemp extract products produced by the licensed manufacturer or  
52 extractor. The commissioner, in consultation with the commissioner of  
53 health, shall approve the laboratory and require that the laboratory  
54 report testing results in a manner determined by the commissioner. The  
55 commissioner is authorized to issue regulations requiring the laboratory  
56 to perform certain tests and services.

1 2. Cannabinoid manufacturers and cannabinoid extractors shall make  
2 laboratory test reports available to persons holding a cannabinoid  
3 permit pursuant to section five hundred forty-two of this article for  
4 all cannabis products manufactured by the licensee.

5 3. On-site laboratory testing by licensees is permissible; however,  
6 such testing shall not be certified by the department and does not  
7 exempt the licensee from the requirements of quality assurance testing  
8 at a testing laboratory pursuant to this section.

9 § 539. Advertising. The department shall promulgate rules and regu-  
10 lations governing the advertising of hemp extract and any other related  
11 products or services as determined by the commissioner.

12 § 540. Research. 1. The department shall promote research and develop-  
13 ment through public-private partnerships to bring new hemp extract and  
14 industrial hemp derived products to market within the state.

15 2. The commissioner may develop and carry out research programs which  
16 may include programs at the New York state college of agriculture and  
17 life sciences, pursuant to section fifty-seven hundred twelve of the  
18 education law and/or New York state university research institutions  
19 relating to industrial hemp and hemp extract.

20 § 541. Regulations. The commissioner shall make regulations to imple-  
21 ment this article.

22 § 542. Cannabinoid permit. The department is hereby authorized to  
23 issue cannabinoid permits to retailers, wholesalers, and distributors  
24 authorizing them to sell cannabis products derived from hemp extract.  
25 The commissioner shall have the authority to set fees for such permit,  
26 to establish the period during which such permit is authorized, and to  
27 make rules and regulations, including emergency regulations, to imple-  
28 ment this section.

29 § 543. New York hemp product. The commissioner may establish and adopt  
30 official grades and standards for hemp extract and hemp extract products  
31 as he or she may deem advisable, which are produced for sale in this  
32 state and, from time to time, may amend or modify such grades and stand-  
33 ards.

34 § 544. Penalties and violations of this article. Notwithstanding the  
35 provision of any law to the contrary, the failure to comply with the  
36 requirements of this article, the rules and regulations promulgated  
37 thereunder, may be punishable by a fine of not more than one thousand  
38 dollars for a first violation; not more than five thousand dollars for a  
39 second violation; and not more than ten thousand dollars for a third  
40 violation and each subsequent violation thereafter.

41 § 545. Hemp workgroup. The commissioner shall appoint a New York state  
42 industrial hemp and hemp extract workgroup, composed of researchers,  
43 producers, processors, manufacturers and trade associations, to make  
44 recommendations for the industrial hemp and hemp extract programs, state

47 ent with federal and state laws, rules and regulations, which workgroup  
48 shall continue for such time as the commissioner deems appropriate.

49 § 546. Prohibitions. Except as authorized in this article, the manu-  
50 facturing of hemp extract for human or animal consumption and the  
51 distribution and/or sale thereof is prohibited in this state unless the  
52 manufacturer is licensed under this article. Hemp extract and products  
53 derived therefrom for human and animal consumption produced outside the  
54 state shall not be distributed or sold in this state unless they meet  
55 all standards and requirements established for such product manufactured

1 in the state under this article and its rules and regulations as deter-  
2 mined by the department.

3 § 547. Severability. If any provision of this article or the applica-  
4 tion thereof to any person or circumstances is held invalid, such inva-  
5 lidity shall not affect other provisions or applications of the article  
6 which can be given effect without the invalid provision or application,  
7 and to this end the provisions of this article are declared to be sever-  
8 able.

9 § 11. This act shall take effect on the ninetieth day after it shall  
10 have become a law.
