**CCB Issues Summary Suspension of Production License**

LAS VEGAS, NV - Pursuant to Nevada Cannabis Compliance Regulations (NCCR) 4.105, today the Nevada Cannabis Compliance Board (CCB) called an emergency telephonic board meeting to consider the summary suspension of the medical and adult-use production licenses held by Kindibles, LLC.

Board members present voted unanimously to summarily suspend Kindibles, LLC (license # 45124567643462616034 and license # 19429852834178744891) effective immediately, citing a present threat to public health and safety.

On 10/20/21, Board Agents visited the production facility of Kindibles, LLC, located in Clark County. After further investigation of production logs, Board Agents found thousands of additional products were added to a production run after testing, among other significant deficiencies. Per the NCCR, each addition of product should be considered a new production run, which requires a separate lab test. Additionally, Board Agents cited inaccurate inventory counts upon finding cannabis products physically present in the vault were not logged in the state's seed-to-sale tracking system, Metrc.

This resulted in [Public Health and Safety Bulletin 2021-2](#) issued by the CCB on November 5, 2021.

Kindibles, LLC is required to submit a plan of correction to the CCB for approval within 10 business days in order to lift the order and shall not resume operations until the CCB has confirmed deficiencies identified in the order have been corrected.

This is the third summary suspension issued by the CCB in 2021.
