The CDPHE and DOR deem it a threat to public health and safety when marijuana is found to have Total Yeast and Mold and Aspergillus above the acceptable limits established in [Colorado Marijuana Rules 4-115](#). This Advisory includes Harvest Batches that were tested and found to have exceeded acceptable limits established for Total Yeast and Mold and Aspergillus.

Individuals who possess this affected product should destroy it or return it to the store from which it was purchased for proper disposal. Individuals who experience adverse health effects after consuming the affected product should seek medical attention immediately and report the event to the MED by submitting an [MED Reporting Form](#).
